

CONSTRUCTING EXCELLENCE Hampshire

"a local club within a national network promoting the exchange of knowledge, information and efficiencies across the construction industry."

December 2015 Newsletter:

We hope that all the attendees at the joint event on the 8th December found the evening a worthwhile experience. One of my aims as the incoming Chairman was to foster greater collaboration between the various professional bodies. I want to see more events like this one; jointly organised by Constructing Excellence Hampshire, the CIOB, the RICS, the Society of Construction Law and the new Solent Branch of Women In Property. On this note I need to say a big thank you to Beverly Lawrence from the CIOB for arranging the venue. Thank you also to the Society of Construction Law, Women in Property (Solent), Stride Treglown Architects and Wates Construction for funding the catering. A final thank you to Blake Morgan Solicitors for providing the name badges.

Constructing Excellence is the single organisation charged with driving the change agenda in construction. We exist to improve industry performance in order to produce a better built environment. We are a cross-sector, cross-supply chain, member led organisation operating for the good of industry and its stakeholders. As an independent organisation we don't receive any funding from government or professional institutions. We rely on membership subscriptions to provide funds that enable us to put on events and site visits to bring people together and spread Best Practice. Further information on membership is available on the website.

The next event will be in Winchester on the 5th February. Further information is attached. This will be the Club AGM so if anyone has any ideas or wishes to be a part of the organising committee then please get in touch.

We wish you all a Merry Christmas and a Prosperous New Year.
